

GracklePDF Editor Spacing Sample

The space insertion wizard is structured to add missing spaces between words into the file. This wizard is structured in a 3 step process to ensure appropriate Page range is selected, a missing spaces check has been run to identify the areas and highlight them prior to insertion, and font encodings have been scanned to ensure improper unicode hasn't contributed to the combining of words in the text elements.

If only a few text elements require spaces, single spaces can be added in manually through the tag properties.

Paragraph text cut-off sample

- The European languages are members of the same family. Their separate existence is a myth. For science, music, sport, etc, Europe uses the same vocabulary. The languages only differ in their grammar, their pronunciation and their most common words. Everyone realizes why a new common language would be desirable: one could refuse to pay expensive translators.
- To achieve this, it would be necessary to have uniform grammar, pronunciation and more common words. If several languages coalesce, the grammar of the resulting language is more simple and regular than that of the individual languages. The new common language will be more simple and regular than the existing European languages. It will be as simple as Occidental; in fact, it will be Occidental.
- To an English person, it will seem like simplified English, as a skeptical Cambridge friend of mine told me what Occidental is. The European languages are members of the same family. Their separate existence is a myth. For science, music, sport, etc, Europe uses the same vocabulary. The languages only differ in their grammar, their pronunciation and their most common words.
- Everyone realizes why a new common language would be desirable: one could refuse to pay expensive translators. To achieve this, it would be necessary to have uniform grammar, pronunciation and more common words. If several languages coalesce, the grammar of the resulting language is more simple and regular than that of the individual languages.
