

# GracklePDF Editor Sample

## GracklePDF Validator

The GracklePDF Validator has been structured within the software to provide quick check access and capabilities to navigate and correct issues pertaining to compliance and usability.

The checker will run automatically upon opening the application.

## Info Wizard

Selecting "Info Wizard" will prompt a pop-up window to adjust document information including metadata, document properties and settings for opening the file.

## Table Wizard

Table Wizard allows for structural overview and adjustment capabilities to ensure all standards for table irregularities, scoping, spanning, and naming and attributes are appropriate for interpretation of the end user. This wizard ensures that tables formatted as such below, with poor structuring, can be formatted appropriately
