Use this test case to test StructuralParentTree

There are two pages in this document. The second page would have its /StructParents deleted.

There are two annotations on each page; one of them has /StructParent and the other doesn't.

Also, note the difference in spelling. Page and annotation needs different keys there.

- "PDF/UA-1:2014 now published". December 22, 2014.
- "Technical Implementation Guide PDF/UA and ISO 32000-1". *www.aiim.org*.

So this page should have two annotations too.

- "PDF/UA-1:2014 now published". December 22, 2014.
- "Technical Implementation Guide PDF/UA and ISO 32000-1". *www.aiim.org*.
